ABOUT THE HINSDALE 5TH GRADE WALL TILE PROJECT

In 2018, upon the opening of the new addition to the Hinsdale Elementary School, the Hinsdale Education Foundation (HEF) launched the 5th Grade Wall Tile Project.

Through this project every 5th grade student designs a tile that will be part of a class display to be permanently installed in the corridor of the new addition.

Eight wall sections have been designated to extend this project to include the 5th grade classes thru 2026. This schedule will provide for the participation of every Pre-K thru 5th grade student in school when the new addition opened.

On DARE Graduation day in 2019 the first 5th Grade Display was unveiled. Thirty-eight students each created a tile design to express the theme "Helping Hands". The resulting display is a fascinating presentation of the generosity and creativity of the class.

The process of collaborating as a class on setting a theme, then creating a design to present that theme, develops skills essential to success in the higher grades and in life in general.

The tile project provides a meaningful way for 5th graders to mark their graduation to Middle School. Making a personal and permanent contribution to the building recognizes the maturity level they have achieved.

EACH STUDENT RECEIVES A KEEPSAKE REPLICA OF THE TILE THEY CREATE.

"They feel a sense of community and accomplishment as they work on the tiles."

-5th Grade Teacher

HOW YOU CAN HELP

The cost to produce the display is \$70 per student: \$30 to produce each custom engraved porcelain tile, \$30 to frame and install the tiles and \$10 to provide each student with a replica of their tile.

While the 5th grade students are responsible for creating the tiles, the Hinsdale Education Foundation is responsible for raising the funds to pay for the display. The Foundation needs your support and offers the following ways:

\$100 - Program Sponsor. Cover the cost of an engraved tile, tile installation and replica tile plus special sponsor recognition in the yearbook and at the school;

\$70 - Student Sponsor. Cover the cost of an engraved tile, tile installation and replica tile;

\$30 - Tile Donor. Cover the cost of an engraved tile;

\$10 - Replica Donor. Cover the cost of a replica tile given to each student.

All donations are fully tax deductible. The annual unveiling of the display will be at the DARE graduation in May. All sponsors and donors will be recognized on a poster of appreciation. Donations of \$10 or more received before the late March publication deadline, will be recognized in the Hinsdale Elementary School Year Book.

"When younger kids see it they can be inspired" - 5th Grade Student
